

Solid Brass Casters and Leg Caps

Customers specify us their inside diameters, cup size and receive perfectly fitting Solid Brass sturdy casters, that beautify the appearance of the furniture. Our company with in house polishing units works to reveal the true shine and luster of Solid Brass furniture caster by skilled craftsmen, which are later assembled and brightened again to deliver a high quality masterpiece.

Our casters are checked against sturdiness to bear the required load with solid cast brass material being used and lathe machined to be in accurate size as well as sturdy enough, Each product is masterpiece in itself and arrive to you with brass screws for proper installation.

Brass Casters are used in traditional furniture but now with advancement of manufacturing, we encourage you to use these high quality and sturdy casters in different contemporary styles as well, in different finishes—such as Satin Nickel, Polished Chrome, Satin Chrome, Brushed Bronze etc.

We are offering the following standard size casters, but you are very welcome to send us an specification of cup size / inside dia required and you'll get that custom product from our company.
